

Veterans' Foundation
Small Grants programme
Guidance to Charities and Organisations applying for a Small Grant

Introduction

The Veterans' Foundation (VF) has established a new funding programme, Small Grants. The grants are to support charities and groups that provide assistance to those in need among serving armed forces personnel, veterans, operationally qualified seafarers and their immediate families.

Definition of Need

Trustees award grants based on this definition of need:

A potential, qualified beneficiary "in need" is one or both of the following:

- *At a disadvantage compared with non-armed forces citizens due to their service.*
- *Someone who is experiencing challenges such as the following: unemployment, homelessness, mental and physical ill-health, injuries, poor welfare, a child's loss of parent or addiction.*

Grants are available for between £500 and £5,000 and must be spent within 12 months.

The Small Grants programme has been set up to support primarily small, grassroots groups to flourish in the Armed Forces Community and to deliver impactful community-based activities. The eligibility, application and monitoring requirements are simpler than our standard and major grants programmes. With this in mind, we envisage that the programme will target harder to reach groups that have not received funding from the VF in the past. e.g. Breakfast clubs, drop-in centres, groups that support underrepresented individuals. We aim to advise you of the outcome of your application within eight weeks from the submission date.

Guidelines for Applying

The first step in the application process is to complete our Small Grants eligibility quiz. You will need to complete the eligibility quiz before you access the grant application form. By answering yes to each of the components, you can identify if your organisation is eligible to apply for a grant award. Exceptions to these rules may be considered but this requires consultation with the VF Grants Team.

Once you have started your application, you can save and resume your application at any point by clicking on the Save and Resume link at the bottom of every application page. A link will be generated which you can use any time within 30 days to resume answering questions on the form. The link will be e-mailed to you by entering your e-mail address when prompted.

Please note that you must use the latest link e-mailed to you each time you exit your application, without the link the data you have entered cannot be retrieved and you will have to restart filling out the application form. Upon visiting the Save and Resume link, file uploads and signatures will need to be reloaded.

The Small Grants programme will work on a rolling basis, meaning that you can submit an application at any time.

You may apply for a Small Grant once per quarter. The timings of the quarterly period can be found on the Veterans' Foundation website.

Organisations that are eligible to apply for a grant

All registered charities and other not-for-profit groups that support our beneficiaries mentioned earlier, may apply. **The following exceptions apply:**

- Groups with an annual income above £100,000
- Community Interest Companies (CICs) Ltd by shares
- Private Limited Companies (PLCs) Ltd
- Statutory organisations – Local Authorities, NHS, Educational institutions
- Individuals

The range of charities and organisations supported by VF is extensive and covers every aspect of social care and includes but is not limited to homelessness, employability, financial disadvantage, disability, welfare issues, and mental health.

Whilst we will accept grant applications from organisations that do not exclusively support Armed Forces' beneficiaries, information will be required as to why the service given to Armed Forces' beneficiaries differs from your other services. Information on what the additional/different needs of the beneficiaries are, and why your organisation is best placed to deliver the project should be included in your application.

The Veterans' Foundation encourages applications from under-represented groups such as:

- People with additional support needs
- Ethnic minorities
- LGBT+ community
- Female groups

What the VF is unlikely to fund through the small grants programme

- Work usually considered a statutory or local authority responsibility
- Overseas trips unless there is benefit over carrying out the activity in the UK; match funding should be secured, and the environmental impact of the overseas trip should have been taken into consideration
- General appeals or applications requesting donations
- Gap years and study trips or fundraising expeditions. If you are fundraising for the Veterans' Foundation, please e-mail fundraising@veteransfoundation.org.uk
- Campaigning or lobbying projects, or general awareness raising work
- Retrospective funding respects i.e. for activities that have already taken place or money that has already been spent
- The repayment of loans or debts
- Armed Forces Day celebrations
- Cadet Groups, unless the grant purpose is to specifically support the activities of veterans who are associated with the Cadets
